

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment

Version No.: 20

9-May-25

Audit Details

Costco Audit Request #	202508-NFGMP-20279		
Audit Type	Initial Audit		
Audit Report #	AUD25675	Auditor Name (First/Last)	Mohamed M. IBRAHIM
Audit Start Date and End Date	September 27-28, 2025	Total Number of Hours Spent Onsite	16 Hours
Follow-up Audit 1	Not Applicable		
Factory Name (As seen On Business License)	Sahinler Egypt Private Free Zone شاهينلر ايجيبت منطقة حرة خاصة		
Address	1,12,13,14 Block 10 and 6&7 Block 16 3rd Industrial Zone New Borg Al Arab City Alexandria, Alexandria 42111 Egypt		
City (Mandatory)	Alexandria	State/Province (Mandatory)	New Borg El Arab
Country (Mandatory)	Egypt		
Postcode (Mandatory)	21934		
Telephone #	00 20 3 4622215		
E-mail	a.deep@sahinleregyp.com		
Supplier Name	United Legwear Co LLC (USA)		

Key Personnel

Name(First/Last)	Job Title	E-mail ID
Mahmoud KOTB	General Manager	m.kotb@sahinleregyp.com
Sunduz GULTKIN	Marketing Manager	s.gultkin@sahinleregyp.com
Silva DHANAPALA	Quality Assurance Manager	silva.sinhara@sahinleregyp.com
Ahmed EL DEEB	Compliance Manager	a.deep@sahinleregyp.com
Mohamed SALAH	Quality Manager	m.salah@sahinleregyp.com

Note: provide up to 5 key personnel only

Sub-contractor Information

Processes	Factory Name	Factory Address
None	N/A	N/A

Company Profile

Factory established in year:	2006
Main manufacturing processes:	Cutting, sewing, quality control, trimming, ironing and packaging
Does the factory utilize an outside/final packaging facility?	No
Product category	Readymade garments active wear for ladies, men's and children
Factory area / dimensions (Unit of measure required, e.g. square feet, square meters)	First building Square meters 10,000 (Land area) Second building Square merers 10,925 (Land area)

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment	
Number of Buildings	2 (1st building there are sewing and accessoris and final product warehouses - 2nd building has fabric warehouse, cutting, sewing and final product warehouse)
Total number of employees	1,552 (973 male & 579 female)
Monthly Production capacity	750,000 pieces
International certification	*EN ISO 9001:2015 certified by "TUV Austria" Certificate Registration No.: 20001220006745, valid until 24-08-2027 * WRAP Certification, WRAP 10886, valid till March 24, 2026 * Global Recycled Standard (GRS) / Recycled Claim Standard (RCS) by GSCS International Ltd, Scope Certificate Number: GSS-MUL-20214700, valid till 06-08-2026
Peak season	Stable all over the year
Major market	USA 40% - Europe 60%
Major customer	Decathlon - Next - Quick Silver - Stafford
Remarks (if any): There are 2 buildings in opposite side Factory is setting up piece printing machine and embroidery machine to be added to company capabilities in the future	

AUDIT RESULT SUMMARY

Sahinler Egypt Private Free Zone

شاهينلر ايجيبت منطقة حرة خاصة

Initial Audit			
Report #	AUD25675	Audit Start Date and End Date	September 27-28, 2025
Auditor Name	Mohamed M. IBRAHIM	Total Number of Hours Spent Onsite	16 Hours
	Section Name	Section Score	Section Rating
Section 1	Management Commitment & Continual Improvement	100%	Green
Section 2	Risk Management	100%	Green
Section 3	Quality Management System	100%	Green
Section 4	Site and Facility Management	100%	Green
Section 5	Product Control	100%	Green
Section 6	Product Testing	100%	Green
Section 7	Process Control	99%	Yellow
Section 8	Personnel Training	94%	Yellow

Report #

AUD25675

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment

Initial Audit

Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
1	Management Commitment & Continual Improvement		
1.1	Does the factory establish a quality policy stating the factory's intentions to meet its obligations to manufacture quality, safe and legal productions as well as its responsibility to the customer?	Full Compliance	Quality Policy under code SE-QP-F "The quality Policy of Sahinler Egypt, which operates in the field of safe ready-made garments production and manufacturing, aims to achieve outstanding levels of customer satisfaction among stakeholders concerned with the company's activities"
1.2	Is the quality policy communicated throughout the factory, and regularly reviewed?	Full Compliance	Quality policy posted in workers native language
1.3	Did management develop and implement a management system to achieve their goals for product quality, safety and customer requirements?	Full Compliance	
1.4	Does the factory review the effectiveness of management systems (e.g. QMS) at defined intervals (minimum once per year)?	Full Compliance	Under PPT "Management Review" No. 32 dated 07/08/2025
1.5	Is there documented evidence that demonstrates management commitment to improve any significant area of findings identified during any previous audit conducted?	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
1.6	Does the factory track its key performance indicators (KPI) for on-time delivery, outgoing quality, complaint rate, etc.?	Full Compliance	
2	Risk Management System		
2.1	Legislative and Safety Requirements		
2.1.1	Is the factory aware of relevant legislation, mandatory standards and industry/customer codes of practice applicable to the product in the countries of intended sale? And does the factory have a process in place for ensuring it is kept informed of changes to applicable legislations, standards and codes of practice?	Full Compliance	Information's provided by customer's
2.1.2	Does the factory have a means of validating information impacting product safety, quality and legality, where such information is provided by the customer or related party?	Full Compliance	Information's provided by customer's
2.2	Risk Assessment		
2.2.1	Does the factory establish a Product Risk Assessment for each product or a group of similar products, e.g., FMEA? Note: If factory does not do product design, this clause should be marked N/A.	Not Applicable	The factory does not do product design, it's depend on customer's product design.
2.2.2	Where manufacturing sites have no responsibility for product design, is the factory provided with a validated copy of the product risk assessment? Note: If factory produces ONLY self designed products, then this clause should be marked N/A.	Full Compliance	Product risk assessment sent by customer's through the "TECK PACK"
2.2.3	Does the product risk assessment address the following aspects which have an effect on product safety and legality?		
2.2.3.1	User types (e.g., new born, young children, vulnerable people i.e., elderly, disabilities)	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
2.2.3.2	Product use (e.g., behavior, durability, user awareness, information and advice)	Full Compliance	
2.2.4	Does the product risk assessment determine the following?		
2.2.4.1	Possible Hazard/Risk Identification (e.g. Chemical, Physical, Regulatory)	Full Compliance	
2.2.4.2	Risk level for each identified hazard/risk (e.g. Severe, High, Moderate, Slight)	Full Compliance	
2.2.4.3	Does the risk assessment indicate, for each risk, the probability or likelihood and the severity and potential consequences of the effects on consumer safety? For those items identified as "not acceptable" does the factory define the action plan to have the item improved to be "acceptable?"	Full Compliance	
2.2.5	Does the factory conduct a Process Risk Assessment of hazards potentially introduced throughout the production processes, including packaging and storage processes?	Full Compliance	
2.2.6	Does the process risk assessment take the following into account?		
2.2.6.1	Manufacturing parameters such as pressure, time, temperature	Full Compliance	
2.2.6.2	Conditions of equipment, molds, dies, machinery	Full Compliance	
2.2.6.3	Chemicals / materials used for equipment (e.g. lubricating oils and paints)	Full Compliance	
2.2.6.4	Calibration of equipment	Full Compliance	
2.2.6.5	Policies on foreign body contamination (e.g. needles, metal, glass and brittle plastics)	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
2.2.6.6	Policies on microbiological contamination (e.g. hygiene of toilet & canteen, pest control)	Full Compliance	
2.2.6.7	Personal protective equipment (including specific clothing and footwear)	Full Compliance	
2.2.7	Does the process risk assessment identify the following?		
2.2.7.1	A list of potential risk or hazards in the production process	Full Compliance	
2.2.7.2	Control points to manage the identified risk to acceptable level	Full Compliance	
2.2.7.3	Accept / reject limits defined for each control point	Full Compliance	
2.2.7.4	Corrective action to be taken where a CP or CCP is out of control	Full Compliance	
2.2.7.5	Responsibility of Control Points	Full Compliance	
2.2.7.6	Records of monitoring & reviews	Full Compliance	
2.3	Verification of Risk Assessment		
2.3.1	Is the verification of risk assessment carried out prior to production?	Full Compliance	Under "Pre Production Meeting Report"
2.3.2	Is the risk assessment carried out by competent personnel (internal or external)?	Full Compliance	By Quality Assurance Manager
2.3.3	Is the risk assessment regularly reviewed, at least annually or when changes made to product design and materials and/or key manufacturing processes?	Full Compliance	Risk assessment regularly reviewed when changes made to product design / new design / order
2.3.4	Does the factory implement risk management systems based on a systematic risk assessment system to assure product safety legality and quality?	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
3	MANAGEMENT SYSTEM		
3.1	Documented Quality System		
3.1.1	Does factory have a documented quality system approved by top management, outlining the criteria and methods used to meet system requirements?	Full Compliance	There is "Quality Management Manual"
3.1.2	Does the quality system include detailed procedures, instructions, and reference documents covering all manufacturing processes?	Full Compliance	
3.2	Organizational Structure, Responsibility and Authority		
3.2.1	Does factory define and communicate the levels of responsibility and accountability for staff involved with product safety, legality, and quality?	Full Compliance	Job Description under form SE-R&O
3.2.2	Are there appropriate arrangements in place, to cover for the absence of key staff?	Full Compliance	
3.3	Customer Focus		
3.3.1	Is there a process in place to communicate customer's needs and expectations to all relevant employees?	Full Compliance	By planning department
3.3.2	Are performance indicators (KPI's) relating to customer satisfaction established?	Full Compliance	
3.3.3	Does factory establish a procedure or policy to safeguard customer property including software and intellectual property?	Full Compliance	Under Purchase Order Reviewing Procedure form SE-CR-P

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
3.4	Specifications		
3.4.1	Do specifications or codes of practice exist for raw materials (including packaging), intermediate/semi processed products (where appropriate), and finished products?	Full Compliance	Specifications always sent by customer's
3.4.2	Are specifications adequate, accurate, and ensure compliance with relevant safety, legislative and customer requirements?	Full Compliance	Compliance with customer requirement
3.4.3	Are any changes in product specifications formally reviewed and approved internally, then agreed with customers, and finally communicated to relevant departments?	Full Compliance	Any changes in product specifications should be approved by customer's before starting the production
3.5	Purchasing, Supplier and Sub-Contractor Approval and Performance Monitoring		
3.5.1	Are there procedures for approval and an on-going monitoring program for sub-contractors and suppliers of all raw materials, packaging, and utilities? Does factory use the results of the approval process to determine acceptable/non acceptable sources?	Full Compliance	No sub-contract used by the facility
3.5.2	Do these procedures include clear criteria for assessment as well as standards of performance required? (Assessment may take the form of monitoring performance through in-house checks, certificates of analysis or extend to supplier or sub-contractor inspection, as appropriate. Assessment may include evaluation of systems, product safety information and legislative requirements.)	Full Compliance	Under form SE-PUI-F1
3.5.3	Does factory provide material specifications and compliance requirements to raw-material, trims and packaging materials suppliers when placing orders?	Full Compliance	Raw materials, trims, and packaging materials determined by customer's before starting production
3.6	Identification & Traceability		

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
3.6.1	Is there a documented procedure for identification and traceability system for all raw materials (including packaging), work in progress and finished products?	Full Compliance	
3.6.2	Are raw materials (including packaging), work in progress, re-works and finished products identified to ensure traceability?	Full Compliance	
3.6.3	Can factory identify, trace, and locate the finished products lots/batches from raw materials (based on random sampling)?	Full Compliance	
3.6.4	Can factory identify, trace, and locate the raw materials used in customer products (based on random sampling)?	Full Compliance	
3.6.5	Is the system regularly tested, at least annually, to ensure traceability can be determined from raw material source to finished product and vice-versa?	Full Compliance	
3.7	Incident Management and Product Recall		
3.7.1	Does factory have an incident management procedure for incidents or emergencies that impact product quality, safety or legality?	Full Compliance	Under "Product Recall Procedures" form SE-P&Q.C.P
3.7.2	Is there a procedure to ensure that customers are notified immediately of any issue which has potentially resulted in an illegal or unsafe product being delivered or already delivered to the customer?	Full Compliance	Under "Communication" in "Product Recall Scenario"

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
3.7.3	Is there an effective, documented Product Recall procedure in place? Is the procedure appropriate, formalized and capable of being operated at any time and takes into account stock requisition, logistics, recovery, storage and disposal?	Full Compliance	Under "Product Recall Procedures" form SE-P&Q.C.P
3.7.4	Does factory conduct mock recall test to check effectiveness of Product Recall procedure at least once a year?	Full Compliance	Under "Product Recall Scenario"
3.8	Complaint Handling		
3.8.1	Does factory have a system for the management of complaints?	Full Compliance	
3.8.2	Do records indicate that complaints are thoroughly investigated and a complete and effective corrective action process is conducted to prevent reoccurrence?	Full Compliance	
3.9	Corrective and Preventive Action		
3.9.1	Does factory have a system for investigating the cause of significant non-conformity against operation procedures, which are critical to product safety, legality and quality?	Full Compliance	
3.9.2	Are there records indicating that the factory takes timely actions to eliminate the root cause of non-conformities against operation procedures in order to prevent re-occurrences?	Full Compliance	
3.10	Document Control		
3.10.1	Does the factory maintain a documented procedure for comment control of formulas, specifications, bill of materials (BOM), procedures and work instructions?	Full Compliance	Factory has "Document Control" procedure under code SE-DC-P

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
3.10.2	Are controlled documents (both hard and soft copies) secured, and are access restricted?	Full Compliance	
3.10.3	Are all relevant safety, legal, quality and complaint documents (e.g. QC, production, complaint, product safety records, equipment calibration, equipment verification, etc.) shall be legible and retained in good condition for the time specified by customers or the factory QMS whichever is longer?	Full Compliance	
3.10.4	All documents in use are the correct version?	Full Compliance	
3.10.5	Any amendments to records are authorized?	Full Compliance	
3.11	Internal Audit		
3.11.1	Are internal audits on management systems (QMS, etc.) conducted at defined intervals (minimum once a year) based on a documented procedure describing the audit methodology?	Full Compliance	
3.11.2	All corrective actions and follow-ups related to internal audits are satisfactorily completed?	Full Compliance	
3.11.3	Are internal audits carried out by competent personnel, who shall be independent of the area of operation being assessed?	Full Compliance	
4	Sites and Facilities Management		
4.1	Factory layout		

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
4.1.1	Is the building designed, constructed and maintained to minimize any potential for product contamination?	Full Compliance	
4.1.2	Does the placement of machinery and equipment allow an efficient product flow and minimize the risk of product contamination, loss of traceability and damage?	Full Compliance	
4.2	Production flow		
4.2.1	Is there a process flow diagram available identifying the CP (Control Points) and CCP (Critical Control Points)?	Full Compliance	
4.2.2	Do the premises allow sufficient working space and storage capacity to enable all operations to be carried out under safe and if necessary hygienic conditions, including areas such as raw material storage, component storage, production floor, packing or finishing area, finished product storage, etc.?	Full Compliance	
4.3	Segregation of products		
4.3.1	Is there effective segregation to minimize the risk of product cross-contamination taking into account the flow of product, nature of materials, equipment, personnel, waste, airflow, air quality, and utilities?	Full Compliance	
4.4	Staff facilities		
4.4.1	Are staff facilities such as washrooms, canteens, and break areas designed and operated so as to minimize the risk of product contamination?	Full Compliance	There are 3 rest rooms used by female workers and 3 rest rooms used by male workers have 56 seat toilets, 46 wash basins and 20 urinals for male workers, there are 38 seat toilets and 29 wash basins There are 5 water dispensers in the facilities
4.4.2	Are workers prohibited from having food or drink or smoking at their work areas?	Full Compliance	
4.4.3	Where smoking is allowed under national law, are designated controlled smoking areas isolated from production areas to an extent that ensures smoke cannot reach the product?	Full Compliance	There are 2 assigned areas for smoking outside production

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
4.4.4	Where specific work wear is required, are designated changing facilities provided for all personnel such as staff, visitors, or contractors?	Not Applicable	Factory produced readymade garments, no special work wear is required for workers or visitors.
4.4.5	Are suitable and sufficient hand-cleaning facilities provided at entrance and other appropriate points within production areas?	Full Compliance	Hand cleaning provided in rest rooms
4.4.6	Is personal jewelry, and other similar items prohibited in the production areas to prevent product contamination?	Full Compliance	Under "Jewelry Policy"
4.5	Cleaning and hygiene practices(Where applicable) Note: Auditors should make a judgment if this sub-section is applicable based on nature of the products		
4.5.1	Are cleaning practices completed so as to minimize risk of contamination?	Full Compliance	
4.5.2	Are cleaning, pest control, and process-aid chemicals suitably identified and controlled to prevent the risk of product contamination?	Full Compliance	
4.5.3	Where cleaning services are outsourced, do service providers have a signed contract which identifies the scope and frequency of the work and a logbook maintained as a record of work done?	Full Compliance	
4.5.4	Do documented cleaning procedures exist for the buildings, utilities, plant, and all equipment?	Full Compliance	
4.5.5	Do the documented cleaning procedures contain the following information: responsibility for cleaning, items or area to be cleaned, frequency of cleaning, method of cleaning, materials to be used, cleaning records and responsibility for verification?	Full Compliance	
4.5.6	Is internal cleaning and housekeeping carried out by trained personnel in accordance with documented procedures? Are records maintained?	Full Compliance	
4.6	Pest control		

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
4.6.1	Has the factory identified and controlled the risk of pest infestation on the site(by factory internal or external third party), through operation of pest control procedures?	Full Compliance	
4.6.2	Does the factory have a clearly defined contract with external contractors which reflect the activities of the site, or have trained staff who undertake this responsibility?	Full Compliance	There is contract with third party for pest control "M.M.A Service" dated 01/01/2024
4.6.3	Are inspection records for pest control maintained and complete?	Full Compliance	
4.6.4	Are pest control tools (e.g. bait stations, fly killing devices, pheromone traps, etc.) robustly constructed, operational, and effective in eliminating the target pests?	Full Compliance	There are 20 bait stations and 55 pheromone traps in the facilities (both building)
4.6.5	Are pest control tools (e.g. bait stations, fly killing devices, pheromone traps, etc.) positioned to avoid potential contamination of materials and products?	Full Compliance	
4.7	Lighting and ventilation		
4.7.1	Is there sufficient lighting in the factory, including the production floor, inspection areas, test areas, storage areas, maintenance areas, finishing and packing areas, etc? Production >=550 Lux Inspection >=750 Lux Warehouse/Storage and Loading >=150 Lux Carton Packing Area >=300 Lux	Full Compliance	All points of inspection is above FC 100
4.7.2	Is the ventilation and/or air conditioning adequate to maintain product safety, legality, and quality at the production floor, inspection areas, test areas, storage areas, maintenance areas, finishing and packing areas, etc?	Full Compliance	Ventilation adequate
4.8	Contamination		

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
4.8.1	Is storage and movement of goods (from receipt of raw materials to delivery of finished products) done with appropriate equipment's and practices, to eliminate any risk of product contamination and damage?	Full Compliance	
4.8.2	Has the factory undertaken the necessary steps to identify and prevent the risks of foreign body contamination as identified by risk assessment including any contamination potentially introduced by the packaging?	Full Compliance	
4.8.3	Are tools and other sharp objects used in production controlled - either tethered on the working station, or through a registry?	Full Compliance	
4.8.4	Where a metal or foreign body detector is required or specified by a customer, do documented procedures exist specifying its use, location, critical limits for detection, routine sensitivity check, maintenance, and recording of results?	Full Compliance	There are 2 metal detector machines in the facility (one for piece and one for carton)
4.8.5	Where applicable are all needles under control without any spare needles unsecured?	Full Compliance	
4.8.5.1	Is there a process for the replacement of a worn or broken needle?	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
4.8.5.2	Is there a process to handle and account for all parts of a broken needle?	Full Compliance	Under "Broken Needle Report" form SE-MT-F3
4.8.5.3	Does the factory retain all needle control records for a minimum of one year?	Full Compliance	
4.8.5.4	Is appropriate action taken when a needle is missing or fragments cannot be found, including but not limited to metal detection procedures, quarantining, destroying batches of product that may be contaminated, etc?	Full Compliance	Under "Record The Replacement of The Broken Needle"
4.8.6	If production and storage areas use wooden tools / equipments / surfaces, that can come in contact with materials, semi-finished goods, and/or products, have associated risks been evaluated and controlled?	Full Compliance	Under "Wooden Policy" form SE-ENV-P
5	Product Control		
5.1	Reference Samples (Preproduction and Production Sample)		
5.1.1	Does the factory have a documented procedure to identify, select, categorize, handle, store, approve and use the pre-production and production reference samples?	Full Compliance	
5.1.2	Does the factory retain the samples which have been approved by the customer? If the customer approval is not possible, the sample representative of the agreed specification must be retained. Note: An exception for those samples that are physically very large or represent a very high cost, e.g. same style being produced in more than one line and/or one factory or one of a kind products.	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
5.1.3	Are the samples retained with a defined retention period and are they securely stored in a suitable environmental condition to maintain their original status?	Full Compliance	
5.2	Chemical Control		
5.2.1	Does the factory maintain a list of 'Approved Chemicals' for chemicals used as an ingredient or that come in contact with products? Does the list include corresponding brands/manufacturers? The list can be in an electronic format or in the computer system. Example - Enterprise Resource Planning (ERP)	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
5.2.2	When chemicals are used as raw materials or ingredients, does the factory have documented procedures for managing, approving and controlling the engineering changes or product changes that may alter the chemical composition of the final product?	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
5.2.3	Is the use of any substances classified as dangerous or of very high concern, in the country of sale, documented?	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
5.2.4	When chemicals are used as raw materials or ingredients, are test reports or certificates of compliance available to demonstrate any presence of hazardous substances / Substances of Very High Concern (SVHC) in all incoming materials and components are below the threshold value for the country of sale?	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
5.2.5	Does the factory have test reports on components or finished products that confirm regulated hazardous substances for the finished product are below the threshold value relating to the product safety regulations of the country in which the products are sold?	Full Compliance	Factory is using "Intertek" lab
5.2.6	Are controlled storage facilities provided for all chemicals used in the factory site (including but not limited to manufacturing, cleaning and pest control chemicals) as per the recommendations on the manufacturer label to avoid deterioration or degradation?	Full Compliance	There is only chemicals for the usage of cleaning
5.2.7	Are procedures, Safety Data Sheets (SDS), description or diagram for the handling of chemicals available at the point of use?	Full Compliance	
5.2.8	Are segregation or other measures in place to avoid cross contamination or undesirable chemical reaction of chemical substances and/or preparations (e.g., acids and bases, flammables and oxidizers should not be stored together)?	Full Compliance	
5.2.9	Does the factory adopt FIFO (First in First out) logistic concept on its warehouse management for the chemicals with expiration dates (materials with earlier expiration dates should be used first)? Note: This applies to all chemicals used for manufacturing, cleaning, auxiliaries, and pest control.	Full Compliance	
5.2.10	When using chemicals, are the production equipment and devices inspected and cleaned regularly between batches to avoid cross contamination?	Full Compliance	
5.3	Product Packaging Materials		

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
5.3.1	Is product packaging assessed for fitness for purpose and determined suitable with regard to the following?		
5.3.1.1	Protecting the product from damage;	Full Compliance	
5.3.1.2	Maintaining the integrity of the product;	Full Compliance	
5.3.1.3	Protecting the consumer from injury; and	Full Compliance	
5.3.1.4	Preventing contamination	Full Compliance	
5.3.2	Does the product packaging conform to an agreed and documented specification as well as legal requirements for the country of sale with regard to composition and recyclability?	Full Compliance	Product packaging confirm with customer's specifications
5.3.3	Are packaging materials effectively protected before being returned to storage?	Full Compliance	
5.3.4	Where staples or other metal closures are used for packaging, are appropriate precautions taken to prevent the risk of contamination, damage or injury to the product or consumer? Note: If metal staples or metal closures are not used, then this clause should be rated as N/A.	Not Applicable	No staples or other metal closures are used for packaging / closing of carton.
5.4	Control of Non conforming Materials		
5.4.1	Does the factory establish documented procedures for the control of non-conforming materials and products? This includes but is not limited to rejections, segregation, acceptance by concession or regrading of the product for an alternative use.	Full Compliance	
5.4.2	Are the procedures for handling non-conforming materials and products understood by the authorized personnel and implemented effectively?	Full Compliance	
5.4.3	Are all non-conforming materials and products and their packaging, handled or disposed of according to the nature of the problem and/or the specific customer or legislative requirements?	Full Compliance	
5.4.4	Are all records kept for the non-conformities and subsequent actions taken?	Full Compliance	
5.5	Product Transport, Storage and Distribution		
5.5.1	Are equipment's used for product transportation clean, hygienic, and well maintained?	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
5.5.2	Are vehicles loaded and unloaded in a covered area or in covered bays to prevent the risk of contamination and/or damage?	Full Compliance	
5.5.3	Where the product needs specific environmental requirements to prevent degradation, are these conditions documented, maintained and monitored during the transportation, storage and distribution?	Not Applicable	Facility produced readymade garments, no specific environmental conditions need, however the factory keep sensor for humidity and temperature in warehouses.
5.6	Stock Control and Product Release		
5.6.1	Does the factory establish a procedure ensuring only products conforming to specifications/defined quality are dispatched?	Full Compliance	
5.6.2	Do the procedures for product dispatch include the following?		
5.6.2.1	a) released ONLY by authorized personnel?	Full Compliance	By customer's QC
5.6.2.2	b) all inspections and testing shall be successfully completed and documented to verify legislative and other defined requirements are met.	Full Compliance	
5.6.3	Where home-workers or subcontractors are used, are the same procedures for products dispatch (as Q5.6.1 & Q5.6.2) applied to the works/products done by home-workers or subcontractors?	Not Applicable	No home workers or sub-contract used in the facility.
5.6.4	Are controls for correct stock rotation in place to ensure materials and products used in the correct order and within the allocated shelf or usage life, where applicable?	Not Applicable	Factory produced readymade garments, no shelf or usage life.
6	Product Testing and Product Claims		
6.1	Product Testing		
6.1.1	Has the factory established procedures to undertake or subcontract the analysis and/or testing according to the product type and intended retail market?	Full Compliance	The factory is using "Intertek" lab for testing

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
6.1.2	Does a documented testing plan exist which includes sample size, frequency, test method and pass/fail criteria for all tests on raw materials, work-in-process and finished products, to ensure that the final product meets regulatory and customer requirements?	Full Compliance	The factory is using "Intertek" lab for testing according to customer's protocol
6.1.3	For those tests on finished products, which factory performs in-house (and does not utilize services of external accredited lab), does the in-house testing comply with the requirements of an approved Independent Laboratory Accreditation Standard or equivalent? Note: This clause is applicable only for those tests on finished products, which factory performs in-house and does not utilize services of external accredited lab.	Not Applicable	No in-house laboratory testing for finished products, factory is using the third party lab (Intertek or SGS) for finished products testing as per customer's approval.
6.2	Product Claims		
6.2.1	Does the factory undertake product testing or inspection to validate and verify any stated claims about a product specification, quality or performance?	Full Compliance	
7	Process Control		
7.1	Control of operations		
7.1.1	Are preproduction meetings undertaken prior to new or substantially changed products being produced, to evaluate and approve the processes?	Full Compliance	
7.1.2	In the event of deviation of the process from specification, is corrective action taken and recorded?	Full Compliance	
7.2	Control of incoming components and raw materials		

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.2.1	Are there documented approval procedures for raw materials and incoming goods, which assure conformance to agreed specifications, requirements and documented positive batch release including compliance to safety and regulatory requirements for the country in which the products will be sold?	Full Compliance	
7.2.2	Is there documented evidence of the inspection status of incoming components and raw materials?	Full Compliance	
7.2.3	Do the incoming goods procedures cover subcontracted work and work performed outside of the primary site?	Not Applicable	No work performed outside the factory. No using of sub-contractors.
7.3	Calibration and control of measuring and monitoring devices		
7.3.1	Has all equipment used in measurement to assure product quality and safety, and accept or reject activities, been effectively calibrated at defined frequency?	Full Compliance	
7.3.2	Is measuring equipment suitably identified to trace back to its calibration status and period of validity?	Full Compliance	
7.3.3	Are procedures in place for actions to be taken if equipment is found not to be operating within specified tolerances and/or limits?	Full Compliance	
7.4	Equipment and tooling maintenance		
7.4.1	Is equipment properly specified before use and are operating parameters for production equipment and tooling determined, validated and implemented as part of the control plan, so as to minimize the risk to product safety, legality and quality, where applicable?	Full Compliance	
7.4.2	Is there a documented system for planned maintenance covering all items of equipment and tools which are critical to product safety, legality and quality?	Full Compliance	
7.4.3	Are preventative maintenance schedules or cycles documented and on schedule?	Full Compliance	
7.4.4	Are engineering and maintenance workshops controlled to prevent contamination risks to the product? Are the workshops organized, clean, and tidy to allow safe, efficient and good-quality work?	Full Compliance	
7.4.5	Do machines, equipment, fixtures, tools and measurement equipment appear to be clean in good condition and well maintained?	Full Compliance	
7.5	Final product packing and control		

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.5.1	Do procedures exist to specify and control the packing of finished product, taking into account customer requirements and product safety?	Deviation	From documents review it was noted that there are procedures for the packing of products taking into consideration customer requirements safety but from plant tour it was observed that some cartons (20%) stored on ground in warehouse
7.5.2	Has the factory verified that the information shown on primary consumer package labels, including bar codes and outer cartons, are correct and met the customer specification, regulatory and safety requirements of the region of intended sale?	Full Compliance	
7.6	Random Inspections		
7.6.1	Are in-line inspections carried out during assembly of the product	Full Compliance	Under SE-P&QC-F9
7.6.2	Procedures shall be in place to randomly sample and inspect work-in-process according to customer or internal in-process-quality-control (IPQC) requirements.	Full Compliance	
7.6.3	Products shall be inspected for appearance, size, color and workmanship prior to packing as per customer or internal requirements.	Full Compliance	Under SE-P&Q.C-F33
7.6.4	Product standards and guidelines shall be available to, and used by, trained factory inspectors.	Full Compliance	
7.7	Industry Module		
7.7.1	Incoming Material Inspection		
7.7.1.1	Shades of fabric and yarn shall be checked against approved standard to verify they are within tolerance (conducted under approved light source).	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.7.1.2	Fabrics shall be inspected according to 4-point, 10-point, or specified system before cutting.	Full Compliance	Under SE-P&Q.C-F6
7.7.1.3	Procedures shall be in place to check shade matching and color to trim on each dye lot.	Full Compliance	
7.7.1.4	Trims and accessories from each dye lot shall be tested and visually inspected against standards and approved samples before use in production	Full Compliance	Under SE-P&Q.C-F27
7.7.1.5	Materials shall have independent test certificates to assure conformity with destination market and/or customer requirements regarding phthalates. Note: This clause is applicable only to soft toys products only.	Not Applicable	The factory produced readymade garments.
7.7.2	Sample Development and Pre-production Plan		
7.7.2.1	Patterns (whenever applicable), pre-production and size set (whenever applicable) samples shall be reviewed and checked against approved specifications, construction requirements and design details.	Full Compliance	
7.7.2.2	Are initial samples made in the factory?	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.7.2.3	Are production samples made in the factory?	Full Compliance	
7.7.2.4	Are samples checked systematically?	Full Compliance	
7.7.2.5	Are bulk fabrics / yarns checked for shrinkage?	Full Compliance	For fabric only, no yarns reception in this facility
7.7.2.6	Are equipment facilities adequate in the sample room?	Full Compliance	
7.7.2.7	Is a dummy fitting form available in the sample room?	Deviation	From plant tour and per management discussions it was observed and noted that there are 4 dummies in the factory for men and women, but missing for children
7.7.2.8	Prototypes shall be made from representative materials in approval forms for identifying potential hazard problems (i.e. sharp points, sharp edges, finger entrapment etc.) Note: This clause is applicable only to soft toys products only.	Not Applicable	The factory produced readymade garments only.
7.7.3	Markers, Patterns, Cutting, and Fusing		
7.7.3.1	Paper pattern and markers (whenever applicable) shall be checked and approved prior to cutting.	Full Compliance	Under SE-P&QC-F56
7.7.3.2	Procedures and controls for spreading process shall be in place based upon fabric properties. Relaxation time and spread height shall be appropriate for the material being spread.	Full Compliance	Under "Fabric Relaxation Report"
7.7.3.3	Fabrics/yarns shall be cut according to dye/shade lot.	Full Compliance	For fabric only, no yarns reception in this facility
7.7.3.4	White/light colors shall be cut separately from darker shade fabrics/yarn.	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.7.3.5	When necessary, is each cut piece individually ticketed with data to give total traceability?	Full Compliance	
7.7.3.6	Cut panels shall be checked against marker using top, middle and bottom panels from the cut panel blocks. Note: This clause is applicable for Apparel only.	Full Compliance	Under SE-P&Q.C-F7
7.7.3.7	Cut panel replacement procedures shall be in place to replace defective panels with fabric from the same dye lot or shade.	Full Compliance	Under SE-P&Q.C-F56
7.7.3.8	Fusing quality shall be monitored through periodic testing of temperature and bond strength with records maintained.	Full Compliance	Under SE-P&Q.C-F51
7.7.4	Sewing, Knitting, and Linking		
7.7.4.1	Sewing lines shall be organized in accordance with process flow, with work instruction.	Full Compliance	There are 38 sewing lines
7.7.4.2	Random measurement inspection at end of the sewing line shall be carried out.	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.7.4.3	Operators of knitting machines shall have approved written procedures explaining the knitting sequence, the amount of weights required for each style, courses/inch, wales/inch, panel width and height when using hand frame machines. Automatic knitting machines shall be properly set per instructions.	Not Applicable	No knitting operation, this facility first reception is the finished fabrics.
7.7.4.4	When necessary, are shade lots separated by a color continuity system?	Full Compliance	
7.7.4.5	Are approved samples displayed in the sewing room?	Full Compliance	
7.7.4.8	Does the factory have a system to manage the labels and hangtags?	Full Compliance	
7.7.5	Wet Processing (N/A if No Wet Processing)		
7.7.5.1	Each wash batch shall be inspected and approved for shade variation against approved shade band under an approved light source.	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
7.7.5.2	Each batch shall be inspected for critical measurement prior to and after washing.	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.7.5.3	Products shall be weighed to ensure the correct quantity of detergent is being calculated and used in accordance with the washing formula.	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
7.7.5.4	Controls shall be in place to ensure that processing cycle times, temperature, and pH are accurately controlled.	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
7.7.5.5	Control and procedures shall be in place to ensure that color, effect and hand feel standards, as well as other aesthetic properties and standards are met.	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
7.7.5.6	Testing shall be conducted on a routine basis to ensure the quality of the water and steam is acceptable and will not cause stains or adversely affect the formula.	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
7.7.5.7	Are hand feel and appearance samples available in this section?	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
7.7.5.8	Is a light inspection carried out before washing?	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
7.7.5.9	Is a light inspection carried out after washing?	Not Applicable	The factory currently is cut and sew, no wet process - No dyeing, washing / laundry or even printing operations.
7.7.6	In-process Control/Testing		

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		<u>Initial Audit</u>	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.7.6.1	Set-up instruction sheets shall be present at each embroidery machine. Thread tension shall be monitored with records kept.	Not Applicable	No embroidery operation during assessment dates.
7.7.6.2	Products or components being produced at sub-contracted facilities or the outsource of washing, embroidery, printing, snap and fastener attachment processes etc. shall be inspected after goods are returned from the sub-contractor.	Not Applicable	No products or components produced at sub-contracting facilities.
7.7.6.3	Controls shall be in place for all critical machine, thread and needle settings base on fabric types and style.	Full Compliance	
7.7.6.4	Seconds and overruns products shall be handled as per customer requirements.	Full Compliance	
7.7.6.5	Testing for attachment security shall be carried out according to customer requirements or internal standards as appropriate.	Full Compliance	Under "Daily Snap Button Pull Test Report"
7.7.6.6	Filled products (cushions, comforters, filled jackets, etc.) should be tested for flammability and must comply with the safety requirements where the products are sold, as applicable.	Not Applicable	Factory is not producing filled products.

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.7.6.7	Filled products being exported to US should have a Law label sewn on to the product.	Not Applicable	Factory is not producing filled products.
7.7.6.8	Opening and mixing of filling components in Blended filling materials.	Not Applicable	Factory is not producing filled products.
7.7.6.9	In filling / stuffing section, factory shall take steps to ensure that no paper, polythene, floor sweepings or other contaminants, e.g. dust, are mixed in with the filling / stuffing material.	Not Applicable	Factory is not producing filled products.
7.7.6.10	Procedures or W/I for controlling weight of stuffing is per product specification or customer requirement.	Not Applicable	Factory is not producing filled products.
7.7.6.11	Fire Resistant fabric/filling (fibers) material shall have independent test certificates, and shall be segregated from non Fire Resistant Fabric/Filling (fibers) Material. Note: This clause is applicable only to soft toys products only.	Not Applicable	Factory is not producing filled products.
7.7.8	Finishing and Pressing		
7.7.8.1	Trimming shall be conducted according to customer requirements or internal standards.	Full Compliance	
7.7.8.2	Pressing shall be carried out according to customer requirements or internal standards as appropriate.	Full Compliance	
7.7.8.3	Controls shall be in place to ensure proper cleaning equipment and cleaning agents are applied to different stain types.	Full Compliance	
7.7.8.4	Products shall be separated into shades prior to packing per customer requirements or internal standards whichever is applicable.	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		<u>Initial Audit</u>	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
7.7.8.5	Is a conveyor-belt-type metal detector used?	Full Compliance	There are 2 metal detectors machines in the facility (one for pieces and one for cartons)
7.7.8.6	Before any finished goods can be passed through the metal detector, are "checking tests" carried out using the nine-point system?	Full Compliance	Under "Needle Detector Calibration Log (9 Point Check) form SE-PQ.C-F42
7.7.8.7	Does the factory conduct 100% metal detection?	Full Compliance	
7.7.8.8	Does the factory have a "metal-free" area?	Full Compliance	
8	Personnel Training and Competency		
8.1	Does the factory establish training procedures?	Full Compliance	
8.2	Does the factory determine necessary competence for personnel performing work impacting product safety, legality and quality?	Full Compliance	
8.3	Does the factory regularly identify training needs (including refresher training) for personnel performing work that affects product safety, legality and quality?	Full Compliance	

Costco GMP Apparel, Hometextile & Soft Toys Factory Assessment		Initial Audit	
Clause #	Sectional Scope & Clause Requirements	Assessment Result	Audit Findings
8.4	Are personnel performing work that affects product safety, legality and quality (including temporary personnel and contractors) appropriately trained and instructed prior to commencing work and adequately supervised throughout the working period?	Full Compliance	
8.5	Are the personnel, who have a direct effect on the safety, quality or legality of products, trained to ensure understanding of risk assessment procedures or outcomes as necessary for their activity?	Full Compliance	
8.6	Are the effectiveness of trainings evaluated?	Full Compliance	
8.7	Are up-to-date training records stored in a secure way such that privacy of personnel is protected?	Deviation	From training documents review it was noted that they are available for workers but from management discussions and training records review it was noted that there is no training records for workers working with the metal detector machines
8.8	Are the personnel performing work that affects product safety, legality and quality demonstrably competent to carry out their activity?	Full Compliance	

 Total Quality. Assured.	Version 05 - 21Mar2025	Costco Pre- Audit Questionnaire (PAQ)			
Instruction: 1. Supplier/ Factory representatives must complete all the required fields(highlighted in yellow), put N/A if not applicable. 2. Supplier/Factory shall provide accurate informations to represent the factory to be audited. Intertek Auditor will verify during the audit. 3. Supplier/ Factory need to submit this completed PAQ to Intertek Coordinator at least 5 days before confirmed audit date.					
1. Factory Overview					
Factory Name	Sahinler Egypt - Private Free Zone				
Factory Address	3rd industrial zone, block 16 plots 6&7 - block 10 plots 1,12,13&14 - New Borg Alarab - Alexandria, Egypt				
Factory Phone Number	201066673393.00				
Factory Fax Number	NA				
URL/Web Address	www.sahinleregypt.com				
Name of Contact	Ahmed ELDEEB				
E-mail address	a.deep@sahinleregypt.com				
Year Established	2006				
Number of Buildings	2	Factory GLN (Global Locator Number) _____			
Total Production Area M ²	13000				
Warehouse Area M ²	2500				
Does factory provide permission for 3rd party auditor to take photographs in all storage and production areas during Costco audit?	Yes

Alphaborder	5	ACTIVE WEAR	CANADA		
INDUS APPARELS	7	ACTIVE WEAR	USA		
5. Product Capabilities					
Note: If your factory performs only re-packaging for Costco and does not manufacture any products for Costco, please mark section 5.1 and 5.2 as "Not Applicable".					
5.1 What items the factory produced in past 12 months?					
Product Category	Years of Experience Producing Product	Actual Units Shipped			
KNIT TOP AND BOTTOM	15	8 million pcs			
woven top and bottom	3	2 milion pcs			
5.2 What are the current items being produced?					
Product Category	Material	Client	Ship date	Quantity (units)	
Example: Pants	100% Cotton	Client ABC	2025/11/13	500,000 pieces	
Woven pant	100% polyester	Decathlon		8,000,000	
Knit activewear	88% poly - 12% spandex	Quiksilver		700,000	
Fashion knit	99% poly - 1% elasten	NEXT		300,000	
activewear - outwear	88% poly - 12% spandex	COSTCO		500,000	
activewear - outwear	88% poly - 12% spandex	Alphaborder		500,000	
5.3 Capabilities on Medical Devices and Health & Beauty Aids					

 Total Quality. Assured.	Version 05 - 21Mar2025	Costco Pre- Audit Questionnaire (PAQ)		
Instruction: 1. Supplier/ Factory representatives must complete all the required fields(highlighted in yellow), put N/A if not applicable. 2. Supplier/Factory shall provide accurate informations to represent the factory to be audited. Intertek Auditor will verify during the audit. 3. Supplier/ Factory need to submit this completed PAQ to Intertek Coordinator at least 5 days before confirmed audit date.				
Is the product manufactured for Costco a medical device?	No	If yes, please attach the Medical device certification and certified report for this, ISO 13485.		
Is the product manufactured for Costco a Health and Beauty Aid or Cosmetic?	No	If yes, please attach the MOCRA certification and certified report for this, ISO 22716.		
6. Production Capabilities In case of power shortage, is back-up generator in place? Yes If yes, how many and what is the capacity of each generator? 256 KW				
6.1 List of Major Machinery / Utilities				
Machinery	Type	Quantity	Condition	
Example: Sewing Machines	Single Needle	100	Fully operational	
sewing machine	SINGLE NEEDLE (lock)	767	Fully operational	
sewing machine	DOUBLE NEEDLE	32	Fully operational	
sewing machine	MULTI NEEDLE	17	Fully operational	
sewing machine	COVER STITCH: 2 Needle	211	Fully operational	
sewing machine	OVER LOCK:	426	Fully operational	
sewing machine	(Lockstitch)	6	Fully operational	
sewing machine	BARTACK	79	Fully operational	
sewing machine	SNAP MACHINE	34	Fully operational	
sewing machine	FLATLOCK (Flatseam)	110	Fully operational	
6.2 List of Process being subcontracted Process Subcontracted 1. Example- Embroidery NA				
6.3 List of All Main Materials used in past 12 months				
Material Name	Imported (Y/N)	Country of Origin		
Example: 100% Cotton	Y	USA		
100% polyester	Y	China		
88% poly - 12% spandex	Y	China		
99% poly - 1% elasten	Y	China		
7. Management Systems and Accreditation				
		(please attach copies of each)		
Accreditation ISO 9001 ISO 14001 BRC Standard - Consumer Products Others (please specify):	Yes No No	Certifying Body TUV AUSTRIA	Date 8/26/2024	Expiry 8/25/2028
GRS - RCS - HIGG FEM - WRAP - SMETA 4 PILLAR				
Is product certification done in terms of selling destination (e.g., UL for US, CCC for China, CE for Europe...) at the factory? No				
If Yes, please specify				
8. Quality Control Management				
Are QA/QC inspectors independent of production? Who does the QC/QA Manager/Supervisor report to? How many QA/QC in total?	Yes GENERAL MANAGER / QA MANAGER 97
